Drifting? Well, let me glance at some of the drift. Our home market has drifted from \$7.000,000,000 in 1870 to \$33,000,000,000,000—not a bad drift, that. Américan worker would not have much spirit left for invading the foreign mar-ket if deprived by a Democratic "tariff for revenue only" of the best market of all, more than equal in purchasing power to all Europe, the home market which they now control, thanks to the Republican protective tariff. German foreign commerce is also making great advances, icularly among our neighbors of S America, but a suggestion that Germany chould for that reason take protection ou of its tariff would probably be received with arching of eyebrows by German statesmen and economists

And this unprecedented growth of our fereign trade is accompanied by expansion as unprecedented in our home trade from one end of the country to the other, the Atlantic to the Pacific, the St. Lawrenge to the Rio Grande. It is not a sudden inflation but a gradual advance under favorable conditions from the prostration of 1997 to prosperity as substantial as it is general. State and County Officers Are Political Amateurs, Mr. Hotchkiss Says.

The cost of organizing the Progressive party in this State and running a campaign for three months has been less than \$90,000, including \$25,000 spent in getting signatures and preparing the petitions which will put the candidates on the official ballot, according to figures supplied yesterday by State

Chairman William H. Hotchkiss. He said that in 54 or 55 of the 61 countles the party will have a com-plete local ticket. Forty-three candidates for Congress have been nomi-nated, 51 for the State Senate, 145 for the Assembly and judicial candidates in three of the four districts which have elections this year. Where nominations have not been made, said Mr. Hotchkiss, "either the countles were so small on to make compliance with the Levy law as amended by the Court of Appeals difficult, or else local conditions

were such as to prevent." Mr. Hotchkiss believes that more than 200,000 of the State's 1,700,000 voters signed the petitions. He said that in New York county the number was about 50,000-"over half of the Republican terday from John Hays Hammond provote in this county in recent contests."

Mr. Hotchkiss also said: This work is the culmination of the or meeting of the pioneer Progressives in what had previously been known as the "Abys-sinia of Progressivism"—the Empire State. ## WE'LL WIN SURE, SAYS WINSTON CHURCHILL

Candidate of Third Party in New Hampshire Here to Get Big Orators.

SURPRISE FOR DEMOCRATS

Author Declares Roosevelt Is Not Drawing All His Votes From Taft.

Winston Churchill, whose regular business is writing "best sellers," but who is spending his holiday running for Governor of New Hampshire on the Progressive ticket, was in town yesterday to address the social welfare meeting in the Cathedral of St. John the Divine. He will remain until this morning for the purpose of calling at the national headquarters of the third party, where he will make a plea that all the available big orators of his party go to his State before election day.

"I believe we are going to win on November 5," said Mr. Churchill. "It is a hot fight, one of the hottest I have ever known, and it is lighting up the entire State every night with red fire That is why I want reenforcements.

"The campaign will finish with Col Roosevelt leading for the national ticket, with myself having a comfortable margin over S. G. Falker, the Demo cratic candidate, and with Mr. Taft and the Republican ticket a bad third.

William Rankin, Williams College, '31, probably the oldest college graduate in America, died yesterday aftrenoon at Clifton, N. J., at the home of his son, Prof. Walter M. Rankin of Princeton University. He was 102 years old on September 15.

Mr. Rankin's last appearance on a college campus was in June, 1902, when he went back to Williams for the commencement. He was the lion of the day.

Mr. Rankin's grandfather came from Stirling, Scotland, to Nova Scotia in 1780 and later removed to the United States. Republican State Chairman William Barnes, Jr., set forth vesterday the result of a canvass of voters in 495 election districts out of a total of 3,105 outside New York city. Taft and Hedges lead, with Wilson and Sulzer second and Roosevelt and Straus a bad third.

Mr. Barnes's estimated vote for the entire State outside of this city, based on this canvass, gives Taft a lead of 110,327 over Wilson and gives Hedges a lead of 117,990 over Sulzer. "These canvasses are carefully made

and have been a reliable guide to the Republican State Committee for the past fifteen years," said Mr. Barnes, It was also said at State headquarters that estimates based on similar can-

vasses in 1904, 1908 and 1910 proved to be not more than 2,000 out of the way as compared with the actual vote on election day. Here is Mr. Barnes's statement:

"The reason for giving to Mr. Patterson power so great that it included authority over Mr. Collier himself forms a subject which I cannot possibly bring myself to explain. Such power was given, however. I declared I could not submit to it. Mr. Collier undertook to end the deadlock by securing my resignation, and the easiest way to secure it was to overrule me on a political situation that happened to be convenient. Any other interference with me would have accomplished the object sought. The means was of no consequence. The purpose was to get me out of the way so that the Patterson regime might meet no obstacle."

He said in an interview here to-day that Gov. Wilson will not get the intelligent

labor vote in the country.

Mr. Debs regards President Taft as practically eliminated as a possibility. He predicts an immense gain in the Socialist vote. He says that the dues paying membership in the Socialist party has quadrupled in the last four years.

The Socialist candidate voiced an opinion that recently has been expressed by many political observers here that Gov. Wilson, if the Democrats win, will be confronted by as serious a split in his own party as now exists in the Republican ranks. He said:

"We are frequently asked if the Progressive movement will reduce the Socialist vote to any considerable extent. Doubtless it will, for the reason that it will take from us many who have more or less pronounced socialistic tendencies, but are not yet far enough advanced to avow themselves members of the Socialist party. But this does not mean is well understood by Socialists, if not by others, that the Socialists are politically uncompromising and the political structure of the contrary it comments to make any further comment on his attitude toward Mr. Sulzer's candidacy. cally uncompromising and that they steadfastly support their own party to the exclusion of all others. About a week ago Mr. Marsh came

The Democrats who had hired him to work at the tariff exhibits thought that while a man was of course welcome to his own ideas on politics his advocacy of Straus was hardly compatible with the fact that he was member of a Democratic organization and told him so.
